Dear Marine Professional:

In keeping with the tradition of previous years, Sector Maryland-National Capital Region (NCR) will hold another "Round Up" starting March 2021. Our goal is to perform as many inspections as possible in areas where high concentrations of certificated passenger vessels are located. We feel this is the best way to prepare for the upcoming fishing and tourist season while minimizing the need to take vessels out of service during this busy period.

Primarily "in water exams" (Inspections for Certification and Annual Inspections) will be conducted during "Round Up," however dry-dock exams will be included within the scope of this activity. We ask that vessel operators who are interested in securing a "Round Up" inspection to email baltdvb@uscg.mil, or call (410) 576-2589. Please keep in mind that an inspection to renew a Certificate of Inspection (COI) must be completed on or before the certificate's expiration date; however, an annual exam may be conducted within three months before or after the anniversary date (date of expiration) of the COI. The dates for the "Round Up" are scheduled below and are subject to change based upon demand.

Tuesday	March 02	Deale / Chesapeake Beach
Wednesday	March 03	Solomons / Ridge
Thursday	March 04	Crisfield / Deal Island

Tuesday	March 09	Annapolis
